

Andrii Kurdiuk

London | +44 (7581) 030-759 | kurdiuk.andrii@gmail.com | www.linkedin.com/in/andrii-kurdiuk-28b41123b

Profile

Principal Data Scientist and Product Leader specializing in Generative and Agentic AI system design, with a strong record of building and deploying enterprise-scale AI solutions across Retail and Consumer. Expert in LLM orchestration, vector search, and GenAI-powered applications using LangChain, LangGraph, and cloud-native applications. Brings deep hands-on technical skills (Python, FastAPI, Docker) and client-facing experience leading end-to-end AI transformations that deliver measurable commercial impact (+3-5% bottom line).

Experience

STYLIN.AI | CO-FOUNDER, CTO | AUG 2024 – CURRENT

Stylin.ai is a GenAI empowered application that helps people to dress better for free. The product relies heavily on GenAI models as well as traditional AI. It is live and welcomes thousands of users every month. Ref: <https://stylinai.com/>

- **Architected and deployed** a GenAI-driven stylist assistant using multimodal LLMs, vector search, and personalized LLM agents
- **Designed and maintained production-grade cloud infrastructure** with modular components
- **Drove end-to-end system design**, from backend orchestration to UI integration, ensuring scalable and cost-efficient deployment
- **Drove end-to-end system design**, from backend orchestration to UI integration, ensuring scalable and cost-efficient deployment

QUANTUMBLACK, AI BY MCKINSEY | PRINCIPAL DATA SCIENTIST AND PRODUCT LEAD | AUG 2019 – CURRENT

Leading development and commercialization of AI and GenAI assets within McKinsey's consumer analytics portfolio. Responsible for technical architecture, delivery excellence, and scaling enterprise solutions across global clients

Selected Generative AI and Agentic AI projects (client-facing)

- Owned end-to-end design and implementation of **Multi-Agent Performance Management System for Revenue Growth Management**, boosting performance visibility for executives across Retail companies in Europe (+3-5% bottom-line impact).
- Delivered GenAI-powered **chatbots for FP&A teams at global enterprises**, increasing decision speed by 30%.
- Directed a cross-functional team to develop a **personalised GenAI marketing engine** (+20% CTR) and GenAI-powered assortment-matching systems.
- Delivered all solutions in **direct collaboration with senior client stakeholders**, driving adoption and measurable business impact

In-house Product Leadership

- **Managing Asset of 6 products** for commercial analytics in Consumer, including AI, GenAI and Agentic AI use cases. Asset generates **multimillion revenue** for the company every year.
- Successfully **deployed across dozens of clients** in the US, UK, Europe, and the Middle East
- Managing a **cross-functional team of 5–7 engineers** and data scientists to maintain, improve, and extend the product
- Owning the PnL, product roadmap, backlog, delivery timelines, and client pipeline, while maintaining strong stakeholder relationships

Selected commercial AI projects (client-facing)

- Built **dynamic pricing engines** for top retailers across the UK and Europe using ML-based elasticity models (+1-3% bottom-line impact)
- Developed a **promo optimization engine and assortment management** tools for one of the largest Nordic e-commerce players (+2-4% bottom-line impact)
- Led deployment of a **sales execution system**, integrating models into scalable backend services (+3-5% top-line impact)
- Acted as **primary technical lead** in client-facing engagements

Education

M.SC. IN APPLIED PHYSICS AND MATHEMATICS | 2013-2019 | MOSCOW INSTITUTE OF PHYSICS AND TECHNOLOGY

Skills & Abilities

Tech and Business domain highlights:

- **Programming & Backend:** Python, FastAPI, Spark, SQL, Docker, REST APIs, Airflow
- **Frontend development:** JS, React, Streamlit
- **GenAI Stack:** OpenAI API, LangChain, LangGraph, RAG, vector search, embeddings, chatbot development, Agentic AI
- **ML & AI:** XGBoost, scikit-learn, PyTorch, uplift models, time-series, anomaly detection
- **Deployment:** Azure, AWS, CI/CD, microservices
- **Business Applications:** RGM, CVM, A/B Testing, Sales Execution, Pricing/Promo/Assortment Optimization

Leadership & Strategy Highlights

- Led cross-functional teams of 5–15+ across US, UK, and EU.
- Oversaw AI product lifecycle from ideation to rollout for Fortune 500 clients.
- Pushed for better AI adoption and cross-level change management in global clients
- Consistently served in client-facing roles across all projects, bridging technical and business stakeholders to ensure delivery and adoption
